

Rates for approval

travelagencyindubai.com · 4 September 2026

What is being asked. Below is what competitors actually charge, and the rate I propose we publish — about **8–10% under** them. I do not need to know our cost. I only need each rate confirmed, or a corrected number written in the last column. Once a rate is published on the site it is a price we have to honour, which is why none of this goes live until it is signed off.

Holiday packages

Rayna Tours is the fairest comparison: a Dubai-based operator selling to inbound tourists, which is exactly our model. Figures below are from their own published package pages.

4 nights / 5 days — per person, AED

Their package includes: 4 nights hotel, daily breakfast, dhow cruise dinner, half-day city tour, evening desert safari with BBQ, one free day, private airport transfers, UAE tourist visa with insurance.

4-star — single	2,105	1,935	–8%	

5 nights / 6 days — per person, AED

Their package includes: 5 nights hotel, breakfast, dhow cruise, city tour, Burj Khalifa, Dubai Aquarium, House of Hype, Atlantis Aquaventure, Dubai Frame, AYA Universe, private transfers, visa and insurance.

Individual experiences

Per adult, AED. Market range is what the Dubai market actually charges today; the middle column is where most bookings sit.

Experience	Market range	Typical	Proposed	Boss
Evening desert safari, shared, BBQ dinner	130–499	~200	179	
Marina dhow dinner cruise	99–350	~135	119	
Old Dubai / half-day city tour	120–250	~150	135	
Abu Dhabi day trip + Grand Mosque	200–400	~280	249	
Private yacht charter, 2 hrs (<i>per boat</i>)	900–2,200	~1,400	1,249	
Airport transfer, private sedan, one way	120–300	~180	149	
Burj Khalifa 124/125, non-prime	from 169	169–199	169	
Burj Khalifa prime time / sunset	from 219	219–260	219	

Burj Khalifa is the one place we should not undercut. Emaar publishes the gate price itself, and every agency buys against that same number, so the room underneath is a few dirhams of margin rather than a real discount — and a price below the official gate reads to a customer as either a mistake or a scam. The way to win on Burj Khalifa is to *bundle* it into a package, which is what Rayna does. Undercutting works where we control the cost: safaris, transfers, city tours, and the packages themselves.

How to send this back

Write a number in the **Boss** column wherever the proposed rate does not work, and leave it blank where it does. Every approved rate goes into one file and appears everywhere on the site automatically — package pages, tour pages and the trip cost calculator — so there is never a second number to keep in sync.

Competitor figures read from the operators’ own published pages on 4 September 2026. Rates move with season and promotion, so treat these as a snapshot to decide against rather than a fixed truth.
